

DVD & CD DUPLICATION

DVD-R CD-R DUPLICATION, ON BODY DISC PRINTING, ARTWORK DESIGN/PRINT

Take One offer a quick and effective DVD & CD duplication service, from a single disc to 50 plus. We use professional grade DVD-R and CD-R discs with full face printing capability. Your DVD copies can be provided in either clear plastic wallets, 7mm clear DVD cases, or standard size 14mm DVD cases. Both 7mm and 14mm cases have a clear PVC sleeve that allows any artwork to be inserted. We can design artwork for both slip case and DVD face, or you can supply your own. We can also convert PAL (UK) to NTSC (North America/Japan etc) formats or NTSC to PAL and then duplicate in the converted formats. CDs can be provided in either clear PVC sleeves or standard CD cases. We can design artwork for printing to the CD face.
